

Forester Silviculture

- Based in Churchill, Gippsland
- Great urban or country lifestyle options
- Work for a longstanding, successful company

HVP Plantations is a successful privately owned softwood timber plantation operator that manages extensive plantations across Victoria.

People successful at HVP are self-motivated who thrive working in a small team and a fast paced and professional environment. They value safety, their regional communities, environmental care and sustainability.

The Role

HVP Plantations is seeking an experienced Silviculture Forester. The role is based in Churchill (near the regional city of Traralgon) where there are a myriad of great lifestyle opportunities at your fingertips.

The Silviculture Forester is responsible for the oversight of large contract plantation silvicultural works program including site preparation, planting and tending activities within strict safety and environmental standards. The role will also require interactions with our numerous stakeholders on a proactive basis.

Applicants will have good communication, staff management and team skills. They will have experience in the forest industry in silviculture. Applicants will be skilled at directing and negotiating with contractors. Good computer and mapping skills are required. A tertiary qualification in forestry or related discipline would be well regarded but is not mandatory.

All applicants must be prepared to fulfil a role in HVP's fire suppression activities which involve some weekend and out of hour's duty on a rostered basis.

A driver's licence is required for this role.

Application Details

A competitive salary package will be negotiated to secure the best candidate and relocation assistance is available if required. A car with some private use benefits is available with the role and the person appointed will participate in our bonus program.

Phone enquiries should be directed to David Neave (03) 5122 0611. Applications should be sent to jobs@hvp.com.au.

Applications close Friday 6 September 2019.
